EDUCATION

**Manakula Vinayagar Institute of Technology,
Puducherry, India**

B.Tech. in Electronics and Communication Eng. (ECE)

CGPA – 9.10 (till 3rd Sem) Sept 2024 – Jun 2028

Course works: Data Structures & Algorithms, Java, Web Development (HTML, CSS, Javascript)

HSC - Percentage: 65 2024

SSLC - Percentage: 77.2 2022

EXPERIENCE

Web Development Intern | ShadowFox
July 2026 – Present

- Developing responsive web pages using HTML, CSS, Javascript.
- Assisted in building and maintaining web applications.
- Gained practical experience in front-end development.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3

Developer Tools: Visual Studio Code

Frontend: HTML, CSS, Javascript, Responsive Web Design

Backend: Node.js (Basics)

CERTIFICATIONS

- Certification in C Programming
- Certification in MS Word & Excel
- Certification in Introduction to Front End Development (Simplilearn)

AREA OF INTEREST

- Full-Stack Development
- Web Development
- Software Development

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase my profile, skills, projects, certifications, and contact information.
- Implemented a modern, mobile-friendly UI using HTML, CSS, and JavaScript with smooth navigation and interactive elements.
- **Tech Stacks:** HTML5, CSS3, Responsive Web Design.

SKY-SYNC: Weather-Aware Internet Signal Booster

- Developed an IoT-based system to monitor weather conditions and analyze their impact on internet signal strength in real time.
- Integrated ESP32 with DHT11 and rain sensors to collect environmental data and display network performance metrics.
- **Tech Stacks:** ESP32, Arduino IDE, DHT11 Sensor, Rain Sensor, Wi-Fi Module, C++.

Real-Time Noise Monitoring System

- Built an IoT-based noise monitoring system to measure ambient sound levels and provide real-time alerts when noise exceeds predefined limits.
- Used sound sensors with a microcontroller to monitor environmental noise and display live readings for smart monitoring applications.
- **Tech Stacks:** Arduino Uno, Sound Sensor(ky038), Buzzer, LCD Display, Arduino IDE, C++.

ACHIEVEMENTS & ACCOMPLISHMENTS

- **CASTILO (Captcha'25):** Participated in the preliminary round of the CASTILO technical competition organized by MVIT, Puducherry.
- **Innovators Day 2025:** Collaborated with the **Robotics and Automation Team** during the National-Level 24-Hour Hackathon, contributing to the design and development of an innovative solution.
- **Smart India Hackathon (SIH):** Participated in the national-level Smart India Hackathon, working on innovative technology solutions for real-world challenges.
- **Best Paper Award – IEEE Conference:** Received the Best Paper Award for presenting the research paper "**A Web Application for Cardiovascular Disease Prediction Using CNN-LSTM Hybrid Models**" at an IEEE Conference.
